Please amend the present application as follows:

Claims

The following is a copy of Applicant's claims that identifies language being added with underlining ("___") and language being deleted with strikethrough ("——"), as is applicable:

1-28.   (Canceled)

29.   (Previously presented) A printing method comprising:

receiving via a network a print command and user parameters that are to be used to select a printer, the print command and user parameters having been provided using a network browser, the user parameters including a printer location parameter;

searching a plurality printers for a printer that satisfies the received user parameters;

identifying at least one candidate printer that satisfies the received user parameters;

determining the availability of the at least one candidate printer;

selecting a printer from the at least one candidate printer; and

forwarding the print command to the selected printer to enable the selected printer to print a document for the user.

30.   (Previously presented) The method of claim 29, wherein the selected printer is the physically closest printer to the user.

31-40. (Canceled)
